EDUCATION

Monash University

Melbourne, VIC

Bachelor of Information Technology and Bachelor of Commerce (Double Degree)

July 2022 - November 2026

- Majors: Business Analytics; Cybersecurity and Network Security. Coursework: machine learning, econometrics, statistical modelling, data visualisation, database systems.
- **Innovation for Impact Award (2024)** - Competitive university-wide award for responsible AI solution design, evaluated on commercial viability, technical rigour, and societal impact.
- **Global Immersion (Fiji) and Innovation Guarantee (Microsoft)** - Led cross-cultural teams through consulting-style engagements: UN SDG-aligned waste-management solutions and AI-driven student experience prototypes.

EXPERIENCE

BSH Home Appliances Australia - Supply Chain Planner

January 2026 - Present

- Developed Power BI frameworks and Excel/VBA automation with procurement and sales teams, surfacing KPIs across 500+ SKUs to enable data-driven decision making, reducing manual reporting by approximately 25%.
- Managed \$50M+ in national inventory across Australia and New Zealand for Bosch, Siemens, Neff, and Gaggenau in SAP, owning stock transfers, allocations, and project reservations while collaborating with 3PL providers and customer service to reduce backorder rates.
- Structured cost-benefit analyses and scenario planning in Excel to deliver actionable procurement recommendations; led inventory audits and master-data validation across 3 distribution centres for senior stakeholders.

Cummins Asia Pacific - Procurement and Supply Chain Project Coordinator

January 2025 - January 2026

- Managed two concurrent diesel genset development programs for distinct regional markets, coordinating cross-functional teams and owning on-time delivery of all OTS and in-development parts across engineering functions.
- Developed Python automation and agentic AI workflows through structured problem solving across 3 functions; designed Power BI dashboards improving data quality for APAC procurement across 10+ markets and 50+ categories.
- Led end-to-end RFQ processes managing supplier engagement, capability benchmarking, and commercial negotiation with 30+ suppliers; delivered cost-reduction initiatives contributing to six-figure annual savings.

Monash University VARS Lab - Research Assistant

June 2024 - December 2024

- Designed Python and R data pipelines to process 100K+ behavioural records using hypothesis-driven analysis with a PhD candidate, improving throughput by 3x and contributing to one peer-reviewed publication.

Dyson - Product Demonstrator and Content Creator

August 2022 - September 2024

- Ranked number 1 nationally in sales across all Dyson retail staff for two consecutive years, breaking the single-day floorcare sales record at Good Guys Nunawading; selected by marketing leadership as exclusive content creator for branded video and social content across multiple launches.

YoureOnTime - Technical Support Analyst

February 2023 - May 2024

- Managed client onboarding and campaign coordination for a cloud SaaS platform (200+ SME clients), collaborating with sales and product teams to execute 50+ data migrations and deliver actionable insights that drove a 15%+ uplift in engagement.

PROJECTS

Previa - AI Financial Intelligence Platform (Co-Founder)

- Co-founded a full-stack AI pre-accounting platform (React, TypeScript, Supabase) automating receipt reconciliation for SMEs; AI/ML pipeline with LLMs (GPT-4o, Mistral) achieving 90%+ auto-reconciliation accuracy.

GymBro - AI-Powered Fitness Application

- Solely designed and built a production-grade mobile app (React Native, Expo, TypeScript) with offline-first SQLite, Zustand state management, and API integrations (Firebase, OpenStreetMap, Open Food Facts) leveraging agentic AI for development and architecture.

Borealis Creative Group - Digital Strategy and Project Delivery

- Managed concurrent digital projects for franchise clients: web development (HTML/CSS, CakePHP), video/photo production, SEO audits, marketing analytics, and paid advertising, improving organic traffic by up to 40%.

LEADERSHIP AND EXTRACURRICULARS

- **Program Coordinator, Preflight STEM Initiative (2024-Present)** - Lead STEM outreach for underrepresented secondary students; manage volunteer teams and curriculum delivery.
- **Basketball Coach, Basketball Victoria / Waverley Raiders (2017-2025)** - Coached junior teams for 8 years through state-level competitions; developed player pathways and team strategy.
- **Officer, Australian Air League (2014-Present)** - 11+ years of youth leadership in aviation and civic education; mentored cadets and coordinated squadron operations.
- **Student Fundraiser, Monash University Alumni Outreach (2024)** - Contributed to raising \$300K+ for disadvantaged student scholarships through outbound alumni engagement and stewardship.

SKILLS AND CERTIFICATIONS

Technical: Python, R, SQL, Excel, VBA, Power Query, Power Pivot, Power BI, Tableau, SAP, Git, React, React Native, TypeScript, CakePHP, HTML, CSS, Supabase.

AI and Automation: Prompt engineering, agentic AI workflows, LLM integration (GPT-4o, Mistral, Gemini), process automation, model development, data pipelines, n8n orchestration.

Cloud and Infrastructure: Microsoft Azure, AWS, GCP, Docker, Kubernetes, private cloud networking, hardware configuration, Kali Linux, Wireshark, Nmap, Burp Suite.

Tools and Platforms: Salesforce, Jira, Confluence, ServiceNow, SolidWorks, Creo, Windchill, SAP ERP, MOVEX, IBM i Access.

Certifications: Certified Procurement Professional (CPP), Lean Six Sigma Yellow Belt, Six Sigma Foundations (Skillsoft).

Interests: Agentic AI, computer hardware and software, process efficiency, cloud computing, data science, strategy, defence, aviation, engineering, motorsport, basketball, design, travel.
